

Democratic Environmental Caucus of Florida

July 17, 2020

Dear Brian Staver,

The Democratic Environmental Caucus of Florida proudly endorses you for Florida House, District 38. We applaud your commitment to the environment and to the people of Florida.

At the heart of our mission to preserve, protect and enhance Florida's natural resources, the Democratic Environmental Caucus of Florida (DECF), DECF Endorsement Committee, along with its county caucuses, works to identify and support Democratic elected officials and candidates like you who are committed to support and promote suitable action on critical environmental issues and legislation.

Congratulations and thank you for your willingness to serve the public and stand for office as a Florida Democrat, and thank you for taking the time to share with us your views on critical environmental matters. We look forward to working with you in the future.

With your acceptance, a press release, photo-op and publicity will be conducted with Covid health and safety and social distancing requirements. Please contact the DECF Publicity Committee's Chair, Bill Bucolo at 727-492-0911 or by email at bbuc@mac.com to arrange the press release. Again, congratulations on your endorsement.

Democratic Environmental Caucus of Florida
Janelle Christensen, President
Dustin Thaler, Vice President
